A B O U T U S

Vistal specializes in manufacturing aluminum windows and doors with knock-down systems tailored for housing clusters. Our customers choose Vistal because we offer:

1. **Significant cost savings** for your development projects through complimentary consultancy with our expert team. Our skilled craftsmen and engineers assist in identifying opportunities to save time and money without compromising quality.
2. **Rapid delivery**, with the first shipment aimed to reach you within **30 days or less**.
3. **The most streamlined window profile** available, providing **approximately 14% more glass area** compared to other market options.

Vistal operates under **DAMAI GROUP**, a leading aluminum extrusion manufacturer in Indonesia with over 30 years of experience in the industry. Our mission is to deliver top-quality products at affordable prices.

OUR PRODUCT STRENGTHS

- Sleek profile with a **45mm sightline/interlock** that allows our windows to offer **14% more glass area** compared to other market options.

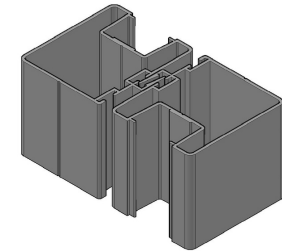

OTHER WINDOWS VISTAL

- **Hidden top and bottom stiles** within the frame, ensuring a seamless appearance.
- **Enhanced insulation and waterproofing** due to high-quality seals and gaskets.
- Rollers featuring stainless steel construction and equipped with two wheels each, providing a weight capacity of **up to 80 kg per sash**.
- Metal joints are sealed with a sealer pad, and the **entire installation process is conducted at the factory**.

- The Anti-Lift device comes as a standard feature, providing protection for both the inner and outer parts, ensuring that window sashes remain securely in position.

- Our products are available with Crescent and Hook Lock options

Crescent
(With lock knob)

Hook Lock
(Flat design)

STRUCTURAL (WIND LOAD)

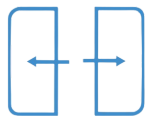

500 Pa
Deflection Max < **L/125**

WATER TIGHTNESS

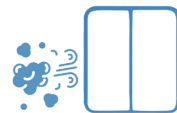

Ensures water-tightness from the outside at pressures up to **75 Pa.**

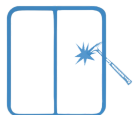

OPENING FORCE

AIR INFILTRATION

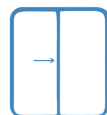

IMPACT RESISTANCE

30 Kg sand bag and
170mm drop height

OPEN-CLOSE TEST

Durability of
30.000 cycles
